## SYMA - Single-Phase - Ø 30mm

Reference :

SYMA + VOLTAGE + CC + COLORS + 30

Example : SYMA230CAVR30

Specify lamp configuration, see **Working**.

### / Generalities

The signal lamps **SYMA**, in AC-voltage, allow the visualisation of 2 different functions on the same LED lamp. They have a fixed light and can be used to differentiate the different states of a working device like «ON-OFF». The robustness of these indicators can be installed in disturbed and humid environments.
